

Open Bible Church Websites- Program for Open Bible churches and affiliates!

Efficiently saves time and money! Open Bible Church Websites are unique! They include an ongoing personal web missionary to help you year round! Just call toll-free or email and your request is done! We have found the perfect balance of local and distance maintenance to give you full control. The only routine tasks required to be done on your end is to keep the calendar updated, approve submitted pictures, and upload sermons (if used). All other pages can be changed as often as you want with a call or email. No need to learn complicated tasks that you will forget between changes.

Impressive, effective features: Our tested features and structure will help you grow and communicate with your flock 24 hours per day. There is no setup fee and everything is included for only \$64 per month, so even the smallest church can afford this. If you gain just one person because of your site, it will more than cover your cost! Over 80% of the people in the U.S. (and growing) use the internet regularly as a communication tool. Adults with school-aged children are at almost 100%.

Take a look: Visit www.huronopenbible.com to see a live sample site! Visit www.openbible.us or call 1-877-221-0364 to learn more about our program or signup. Remember to put this in your budget! Ask us about a feature that will provide the finance to cover your web cost!

Signup by Dec. 31st and receive an extra address that points to your site! (.com & .org)

Our Advantages:

- Achieve the features and appearance of a full-time webmaster on staff.
- Automatic filler content and helpful links to keep people coming back to your site regularly.
- An efficient structure that reduces your required time and allows your congregation and staff to help with certain features, but with your control.
- Assistance and training to help you setup and record your sermons.
- A new to your town page that helps you reach new residents even before they move to your town.
- Hosting, domain, programs, setup, consultation, updating, and maintenance (everything) is included for \$77 per month. No setup or design fee! Only \$64 per month if you pay annually.
- Build repeat visitors and spiritual growth with our Bible Tools page that centralizes access to the best study tools.

Look at the other side to see what's included!

Your church website has two main purposes: To attract new people and to communicate with those already connected to you. Our tested structure will effectively help you accomplish that. Your website will show visitors that you have a standard of professionalism and that you have a lot to offer, no matter how small your church is!

Why re-invent the wheel? Take advantage of the features and proven structure that has been developed for Open Bible churches and affiliates. Your church can have a website that would normally require a full-time person to develop and maintain for a cost so low that you cannot afford to do it any other way!

Efficient Structure: This program removes the common challenges of a busy pastor to have an effective, professional church website!

Compare final costs: If you were to purchase the hosting and essentials for an empty site yourself, then pay someone minimum wage for two hours per week to be your web master, you would pay more than our cost, but wouldn't have all the effective features we offer.

Why Not?

This program will give you the most professional image, the most efficient use of your time and finance, the most effective communication tool, and protect your site from the common problem of staleness.

How does it work?

We setup your initial site and features with your guidance.

We train you or a designated person how to use the three easy to use features (calendar, photos, and sermons) that usually need weekly attention.

We handle all other changes or technical work for you via a toll-free call or an email! We even go one more step! We constantly review your site to prevent staleness.

Compare

If you were to purchase the hosting and essentials for an empty site yourself, then pay someone minimum wage for two hours per week to work on your site, it would come out to more than our monthly cost.

Costs of doing it yourself:

Monthly hosting \$13
Monthly podcasting \$10
Domain registration \$1
2 hours of min. wage times
4.25 weeks \$65
Total monthly: **\$89**

Cost using our program:

Only **\$64/mo.** if paid annually. \$77 if paid monthly.
